

we're a studio that **MAXIMIZES** digital experiences

ABOUT

MUXIT is a software studio founded by two software engineers, united by a shared passion and dedication for the digital world.

DEVELOPMENT

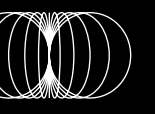

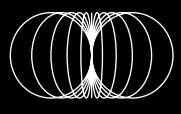

Whether you're a startup in need of a MVP, or an agency looking for software development support, we're here to help. We focus on creating digital solutions that work.

INTRO

WHO ARE WE

MUXIT is a software studio built *on zero dependencies.*

SOFTWARE STUDIO

At the heart of MUXIT studio is software engineering principles, we love tackling problems and using our own solutions, totally independent

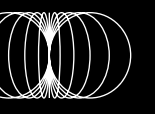

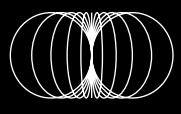

+

+

ZERO DEPENDENCIES

We don't rely on anyone, we're fully independent and we work with our own tools, minimizing down-time and maximizing efficiency

WHAT WE DO

MUXIT maximizes your ideas with *a membership.*

UNLIMITED REQUESTS

After signing up, we'll create a Discord channel that will serve as our central communication channel, and a Todoist project. You create requests by adding either adding tasks on the Todoist or by letting us know through our Discord.

UNLIMITED SCOPES

We can do anything that's within the scope of our services. We can design and build websites, landing pages, web apps, and more. If you're unsure, just ask!

WHY THE SUBSCRIPTION?

We've chosen our pricing model primarily for its predictability.

We've explored various pricing methods, but found that a "subscription" model is mutually beneficial.

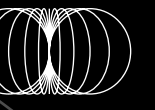

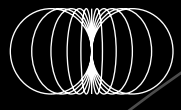

For clients, it offers clarity. They can anticipate high-quality design work without the hassles of varied quotes, fluctuating billable hours, or the financial burden of hiring a senior designer full-time.

1 JUNIOR + 1 SENIOR DEVELOPER + 1 DESIGNER

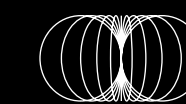

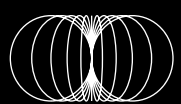

A subscription always guarantees a capable team that's ready to help you tackle any problems you have, or develop new ideas.

PAUSE OR CANCEL ANYTIME

You can cancel your subscription any time your needs are met. Many clients choose us because they foresee ongoing demands for their businesses.

WORK

Wallstreeters

Wallstreeters simplifies investing with real-time portfolio tracking and easy-to-use evaluation scores. Connect with an investor community and link brokers effortlessly.

INDUSTRY

FINTECH

+ SERVICES

Figma, Web Design, Software Consulting

+ APPROACH

We partnered with Wallstreeters to revamp their stock analytics platform. The previous setup needed a refresh, and that's exactly what we delivered.

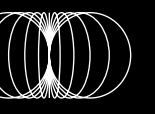

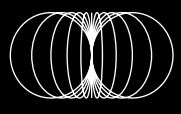

We rolled out the MVP with scalability in mind. It's structured to smoothly accommodate future features, setting the stage for long-term growth.

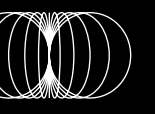

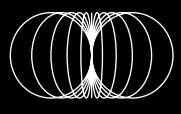

Though we've reached the 1.0 milestone, our collaboration doesn't end here. We're committed to continuous improvement and have a roadmap of new features to deploy in the upcoming months.

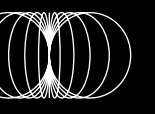

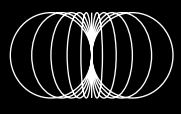

+ OUTCOMES

Outcomes are still being shaped as we continue our hands-on collaboration with Wallstreeters. The launch of the MVP serves as a critical first step, but it's just the tip of the iceberg.

Note: Will update this when they are clear and visible.

TO BE DEFINED

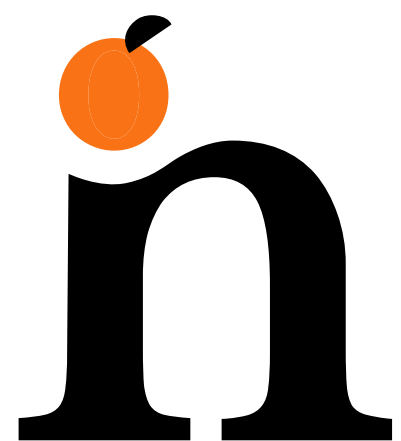

ahorta

A ahorta is all about revolutionizing Portugal's agri-food industry, introducing innovations specifically to public markets, food fairs, and local commerce

INDUSTRY

FOOD RETAIL

+ SERVICES

Branding, Figma, Web Design, Software Development, 3D Modeling, Prototyping, Business Plan

+ APPROACH

A ahorta is a project aimed at modernizing and achieving digital transformation in Portugal's agri-food sector, with the goal of fostering a more equitable and balanced system.

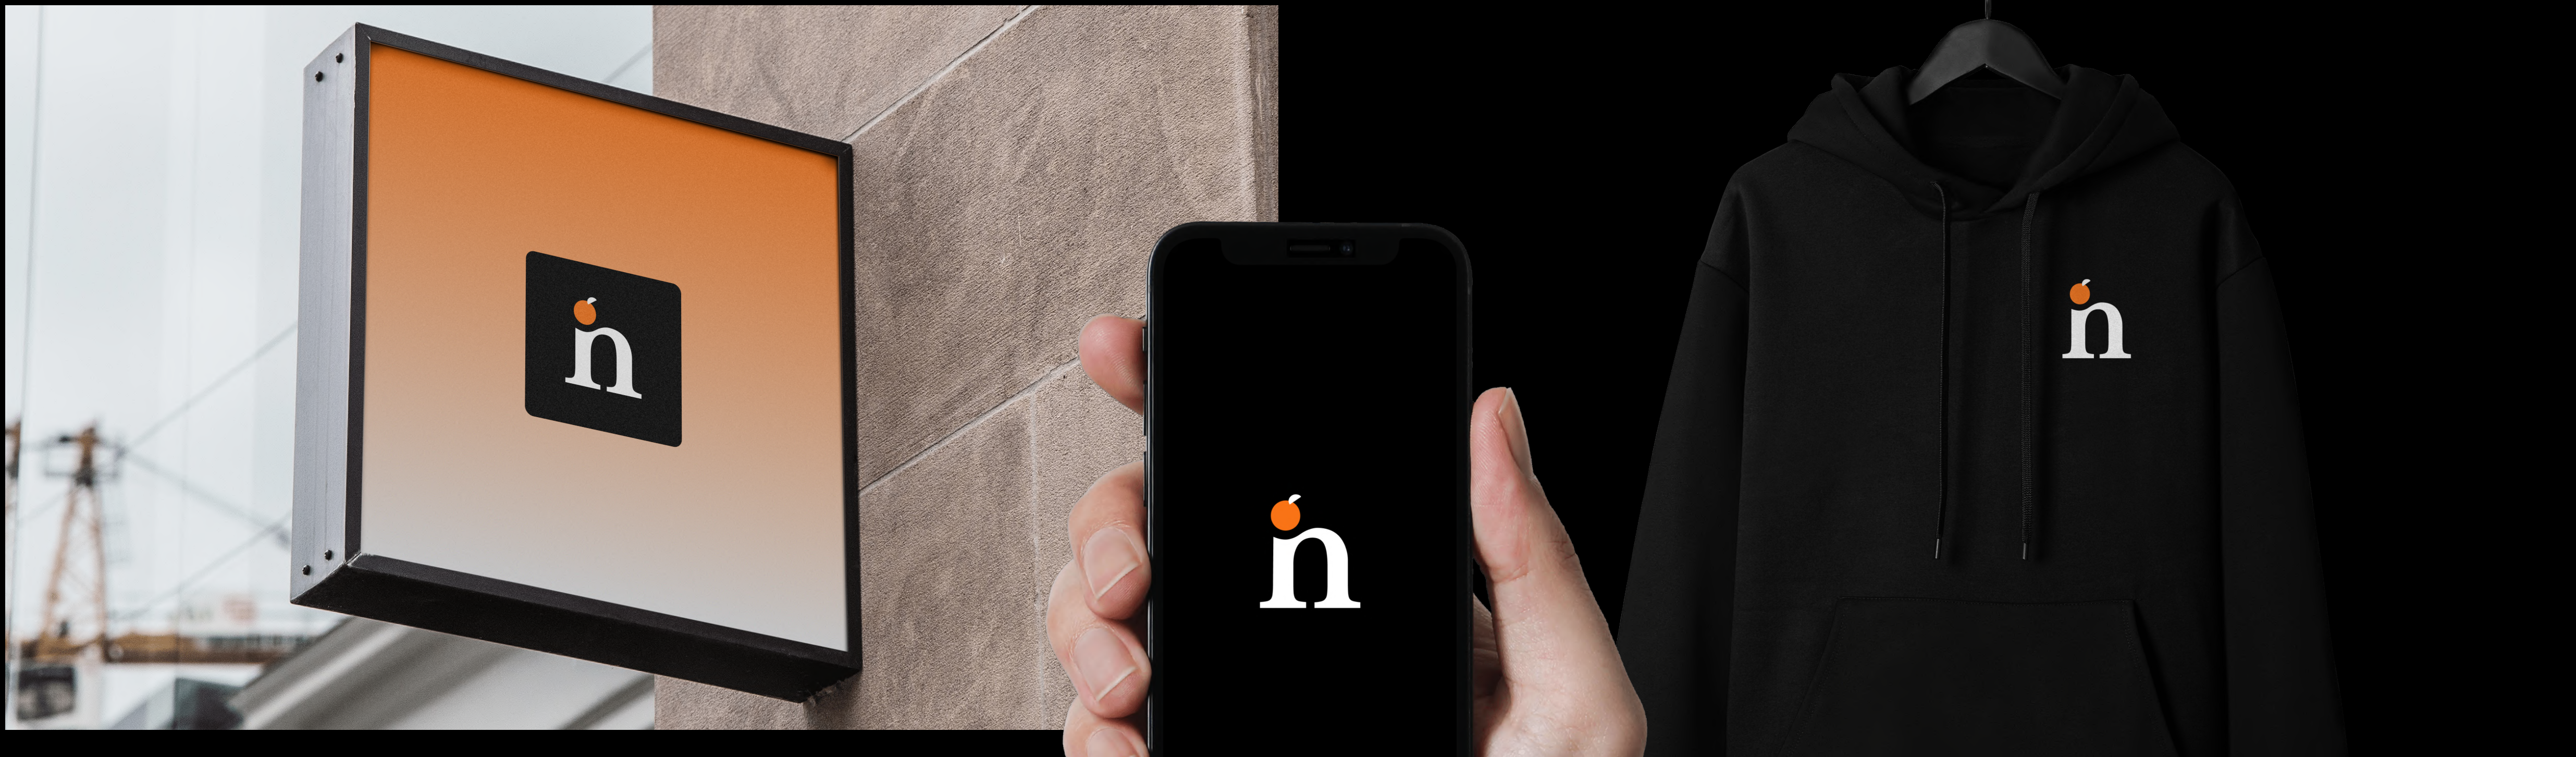

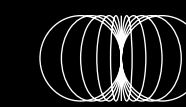

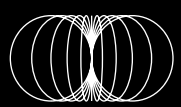

We're taking municipal markets, food fairs, grocery stores, and local commerce into the 4.0 era by promoting short agri-food circuits.

We also vision a social platform where consumers, whether the general public or businesses (like restaurants), can easily access and view all available food products in their local community with just a few clicks.

NOTE: "ahorta" is homemade by MUXIT.

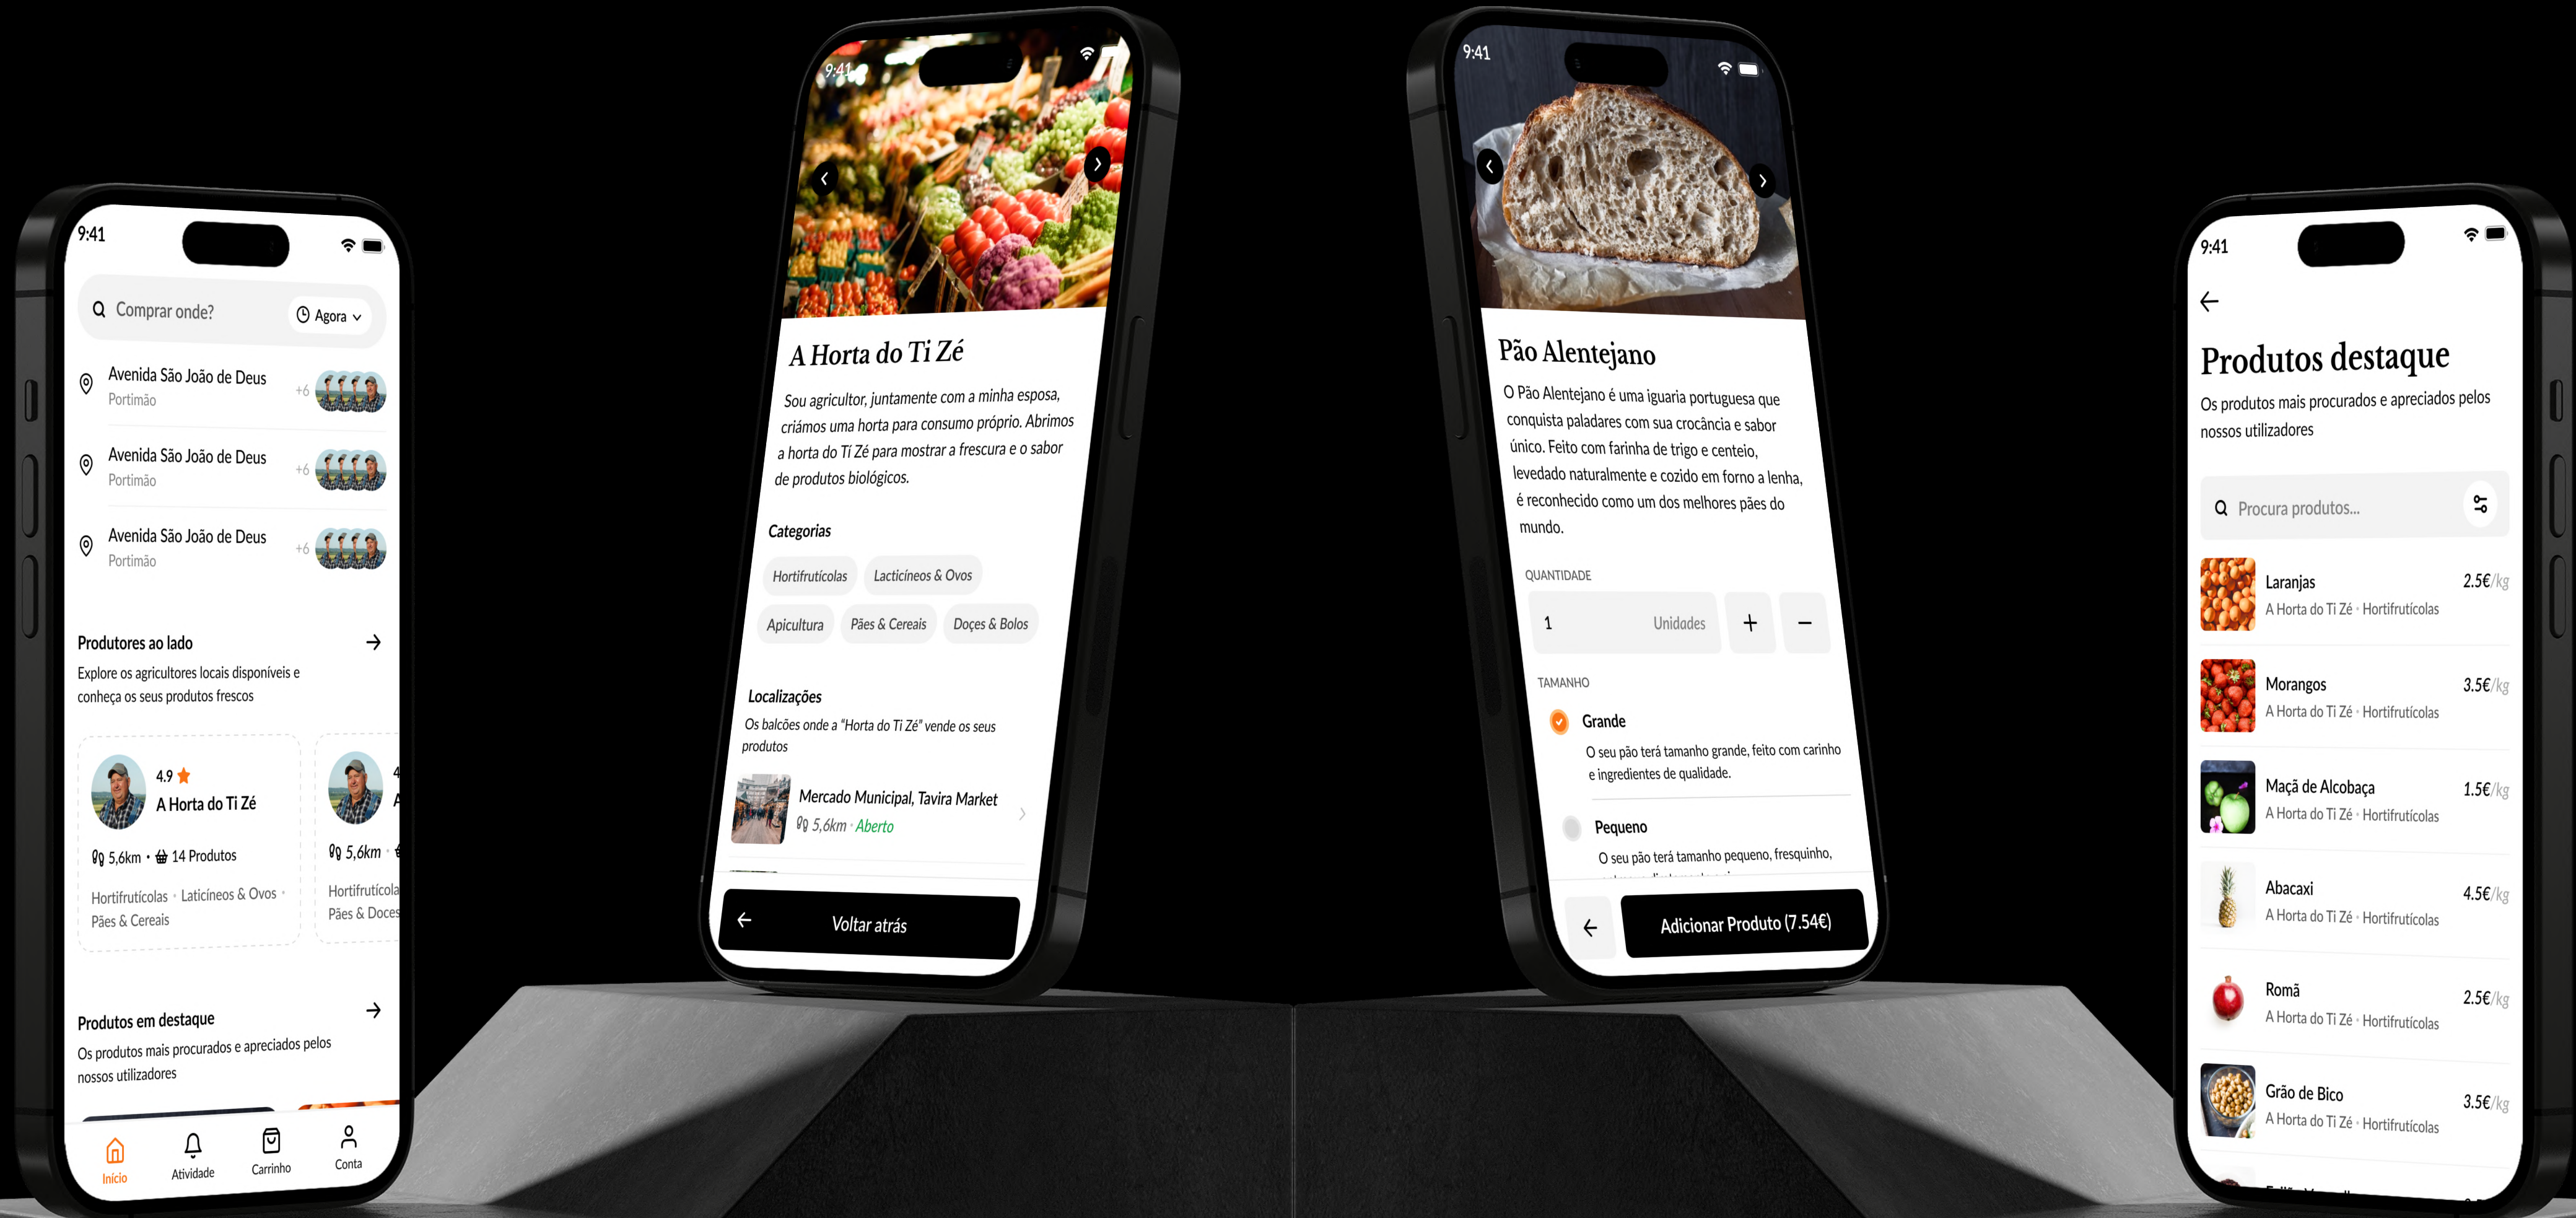

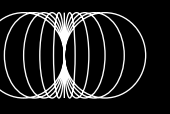

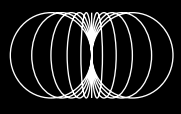

+ OUTCOMES

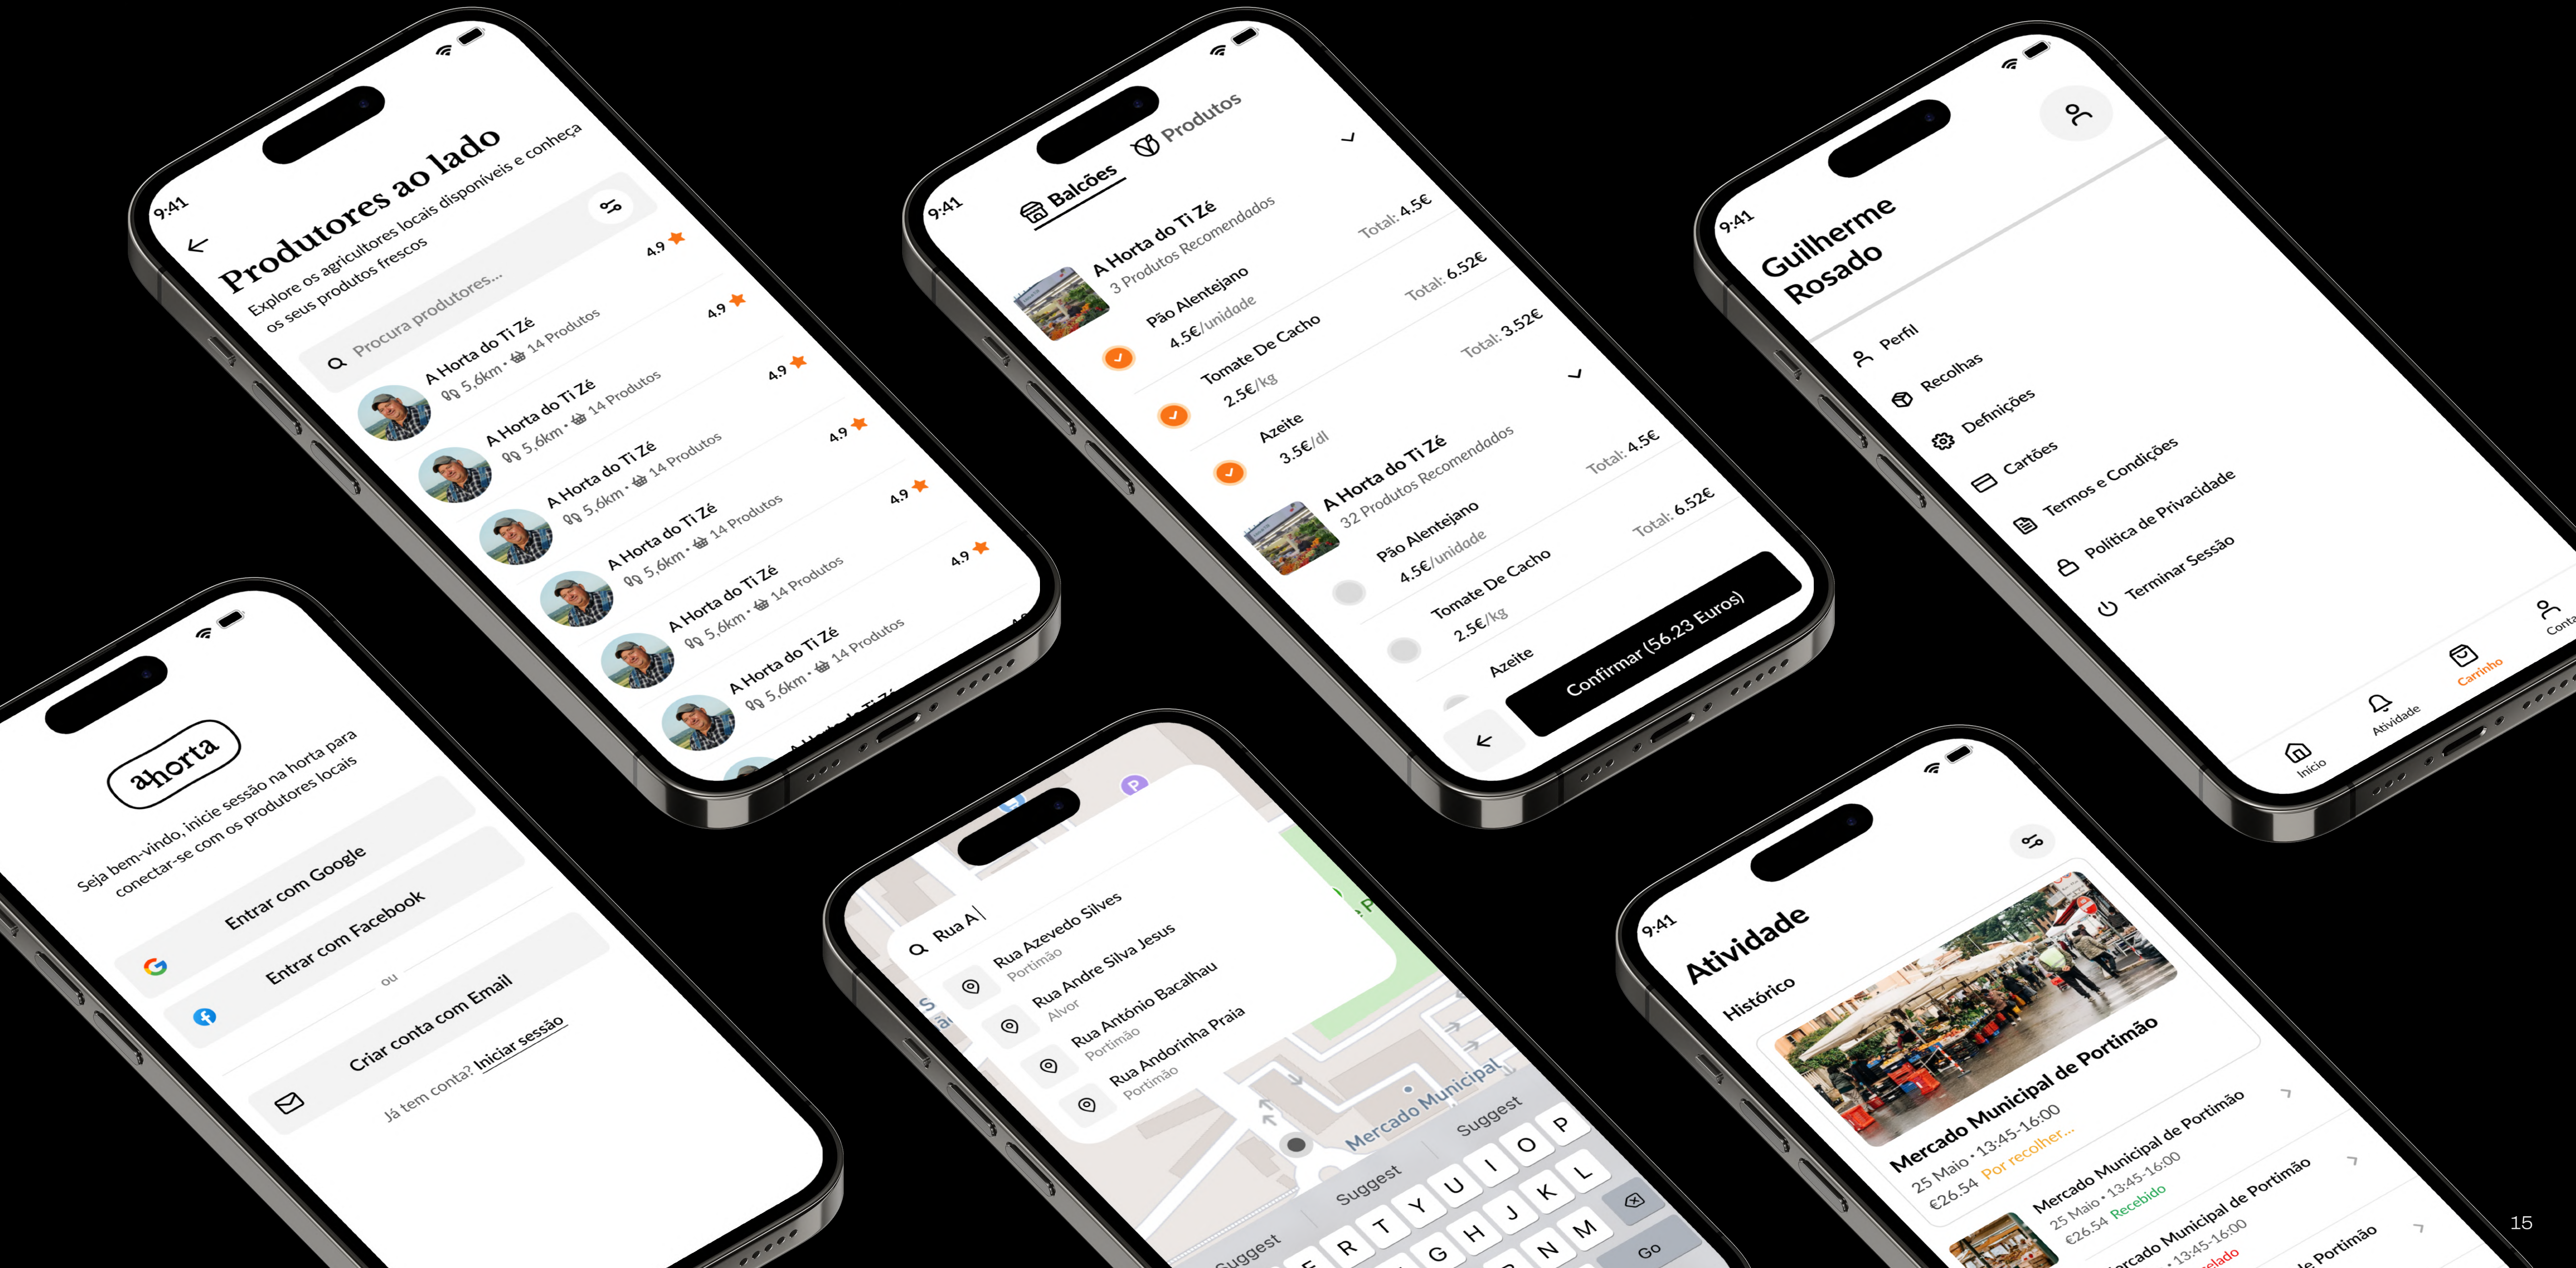

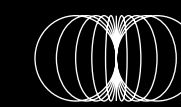

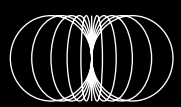

While the project is in full swing, the outcomes are still to be defined. We're excited about the momentum we've built and are looking forward to seeing the tangible impacts of our work in the near future.
